

A photograph of the Washington Monument in Washington, D.C., viewed from the Tidal Basin. The monument is a tall, white, obelisk-shaped structure that rises vertically in the center-left of the frame. In the foreground, a dense line of cherry blossom trees with light pink flowers stretches across the middle ground, partially obscuring the base of the monument. The trees are reflected in the calm water of the Tidal Basin. In the background, a clear blue sky is visible, and a large, red-brick building with a central tower is situated on the right side of the image. The overall scene is bright and clear, suggesting a sunny day.
